The IACCM-IESEG2019 Conference Committee makes bursary awards to students and early career scholars who have submissions accepted for presentation at the annual conference.

### Selection Criteria

Winning applications are chosen by the Conference Committee, based on the scholarly quality of the applicants' submissions and the motivation letter they attach to their bursary applications as well as the committee's intention to choose applications that represent a diverse applicant pool. The Conference Committee may also request additional documentation to support the application or prove eligibility, when necessary. A diverse applicant pool is defined in terms of gender, nationality, language, or other characteristics representative of a global constituency. The committee will attempt to recruit a diverse pool of applicants for bursaries to ensure a wide representation across diversity parameters as they are exemplified above. In selecting winners, the committee shall keep in mind the desirability of ensuring diversity in opinion, experience and representation.
